Dear Sir/Madam,

I would like to convey my thanks to your company and in particular, Nigel Smith and John Armstrong who installed our whiteboards and projectors during our summer break. The work was carried out in a friendly, yet professional manner and completed to a high standard.

Nothing was too much trouble for these two, who completed work above and beyond our expectations. They also took time to assist myself and another colleague with various other more menial tasks whilst they were on site.

They are great ambassadors for your company, of who we would recommend to other schools with no hesitation, as we know they would receive the same level of service .

Many thanks again.

Yours Sincerely

Mrs Catherine Eulert
